## Curriculum Notes

- With the exception of the Math, Biol, Chem, and science elective courses, a maximum of 30 community college credits may apply to this specialization.
- Please refer to the Course Catalog (<https://catalog.seattleu.edu/>) for a full list of approved courses that fulfill CRJS specialization electives.
- Students planning to pursue a career in forensic psychology are strongly encouraged to double major or at least minor in Psychology. No more than 15 credits of PSYC courses from this specialization will be counted towards the minor. Students double-majoring in PSYC have the choice to either take PSYC 3030 & 3050 OR CRJS 3010 & 3020.
- If CRJS 4870 if taken for 3 credits, student may need a 2-credit general elective to reach the 180 credits required to graduate.
- Students who don't place into Math-1026 (or Math-1021 in Fall24) will take Math-1023 AND Math-1024. Completing Math-1024 brings you to the same level of math as completing Math-1026. Math-1023 then since it is an extra course can count for 5 credits of the 10 "Additional Math or Science Elective" credits required by the major.
- To take BIOL-2200 and BIOL-2210 later, students must first take CHEM-1050/1051: CHEM-1050/1051 counts towards 5 of the 10 "Additional Math or Science Elective" credits required by the major.
